*

Accomplishments

- Designed and implemented image system
- Reduced deficit and earned profit
- Implemented RLP's first Client Server system
- Developed and designed expert underwriting and loan processing system
- Started NTS in 1989
- Successfully diversified NTS into two Divisions. Electronic Filing and Internet services
- Sustained substantial growth rates while maintaining control and service.

**Professional
Experience****NTS Services Corp Pekin, IL***1989-Present***President/CEO**

- Started NTS in 1989 as a home business. In 1990 substantial growth required moving the company into a commercial environment. NTS has two divisions today, Electronic Filing and Internet Services.
- The Electronic Filing division (started in 1989) services customers in all 50 states and has sustained a growth ratio of between 100% and 800% each year.
- The Internet division (started in 1995) services customers in the Central Illinois area. Current plans call for expansion into the National market in 2000. This division has sustained a growth rate of between 100% and 200% each year..
- Designed and converted Dos based Electronic Filing to Client Server utilizing several development tools. Replace the DOS front Ends with Visual Basic and Delphi to a Client Server scenario communicating with Microsoft SQL Back End.
- Conversion involved hundreds of procedures and over 800,00 lines of code.
- Successfully implemented back end On-line Data retrieval and Web Sites for Vendors and Customers.
- Structured and diversified NTS into a National Internet provider that now offers Internet Access in over 3,000.00 Cities.
- Implementation and design of various management control systems to keep track of BroadBand customers billing and Tax payment to various governmental agencies.
- Designed, engineered and facilitated the necessary technical, accounting, and logistics requirments to provide Voive Grade services to NTS customers.

RLI Insurance Company, Peoria, IL

1982-1994

Manager of National Accounts Administration

- Managed a group of 15 clerical, secretarial, and 2 professional employees. Experience in hiring and evaluating personnel. Developed and managed a budget in excess of \$500,000. Responsible for interfacing with the National Independent Insurance Association of America while maintaining the account systems. Responsible for producing the best product at the best possible price.

Manager of National Accounts Systems

- Re-engineered the current policy system while controlling costs, which required a major rewrite of the system.

Managing Director of Operational Technologies

- Responsible for the research and development of new technologies. Implemented RLI's first image system. Client/server technology was researched, developed, and implemented (1992). Researched OCR and Handwriting Recognition to facilitate an automatic scanning system

Executive Software Specialist
